NEW TAX COLLECTOR

Auditor's Agent O'Donnell's Proposition Accepted By Council

Pursuant to a motion adopted at the last meeting of the City Council, the Ways and Means and Laws and Ordinances Committees met at the Council Chamber last Thursday afternoon to discuss the proposition of John J. O'Donnell looking to the listing for assessment of omitted property which is subject to city taxation.

Mr. Henry L. Newell, Dr. Thomas E. Pickett and all the Councilmen except Mr. R. R. Frost were present.

The proposition was discussed in its various phases by the whole Committee, and a resolution was adopted recommending its acceptance, with some immaterial modifications.

Under it Mr. O'Donnell is given practically the same compensation for his services which he now receives for similar services as State Auditor's Agent.

It is reasonable to suppose that if anything like a fair proportion of the property which is now omitted was listed for assessment it would realize a snug sum for the city, which would later materially reduce the annual levy.

Since the advent of the Auditor's Agent in Mason county the annual county levy has been reduced about 15%, which is due in a great measure to the taxes collected on omitted property.

Under the plan adopted by the Committee at this meeting the City Council retains full control of its own system of taxation, and no injustice can be wrought to individual taxpayers by unauthorized "collectors of taxes."

When assessments are overlooked or omitted the property will be assessed by the City Council and the taxes collected according to law.

"It is the law of American politics that no man can make himself a candidate for President, and no man can prevent himself from being a candidate for President."—From a statement made by the late James G. Blaine.

It is not surprising that our friends the Russians should blame our friends the Japs for attacking and destroying several of their fine battle-ships. The little "Yankees of the Orient" ought to have been in bed asleep at midnight instead of hunting for the Russian b'ar.

PHILIP KEIFER, a wealthy retired manufacturer, died a few days ago at Dayton, O. Some months since he celebrated his 102d birthday. He drank six cups of coffee daily all his life, and was an inveterate user of tobacco; and but for these injurious habits it is thought he might have outlived METHUSELAH.

In the opinion of Chancellor E. BENJAMIN ANDREWS of Nebraska University ABE LINCOLN was a man lacking in refinement. Too bad, indeed! Ate with his knife, perhaps.—Commercial Tribune.

Very likely. Yet LINCOLN's state papers and his Gettysburg oration will live as classics long after the tribe of ANDREWS and Nebraska University are lost in forgetfulness!

WHEN Colonel WATTERSON was asked what he thought about Colonel BRYAN's attack on him at the Goebel memorial meeting at Frankfort he said—

"A man who prefers delivering a speech abusing me to attending the funeral of his sister is welcome to all he can make out of such a performance, and so are those who applaud such an exhibition of insensibility."

And the band played "seven-up."

A. S. THOMPSON, who represents Bourbon county in the Legislature, is the man who offered the bill changing the Appellate Court Districts for the sole purpose of making six out of the seven safely and solidly Democratic. THOMPSON is the lone member of the Legislature who voted against the appropriation for Kentucky's new Capitol. That's the sort of Democrat he is,—placing politics above the material prosperity of his state.

WONDER what Captain H. S. IRWIN, ex-Congressman from Louisville, means by this—

"I should have known that I had no chance for the Pension Agency when the President said he favored me. Mr. ROOSEVELT told SAMUEL H. STONE he was to be appointed Collector at Louisville and told D. R. COLLIER he was to succeed C. M. BARNETT as Surveyor of the Port. If the President had told me I had no chance I should have considered my prospects for appointment bright."

CONCLUDING an able article on the possibility of the United States becoming involved in the Japanese-Russian War, Colonel W. C. P. BRECKINRIDGE says in The Lexington Herald—

"MR. ROOSEVELT is able, alert, rapid, decisive; he has risen with occasions; Mr. HAY is an unusually able, adroit and accomplished diplomat, perhaps more—a broad and composed statesman—and for one we will trust them to act with wisdom, discretion and yet with firmness. In deciding a \$5,000,000 tax question in Cincinnati a few weeks ago, because Judge SPIEGEL didn't use six or seven thousand words to say what could be better said in three hundred, the lawyers for the tax shirkers took the case to the Supreme Court. And the Supreme Court didn't even write one hundred words. It simply said, "SPIEGEL's all right!" This is one of the encouraging signs of the times, and is a deserved set-back to that class of lawyers who are afflicted with a diarrhea of words that mean nothing.

While the Democrats of Kentucky curse the Protective Tariff early and late the Democrats in the Legislature are passing innumerable protective measures, that is, measures intended to protect various callings, and that from ruinous competition. GERMAN SYRUP.

We want to impress our readers that Roscoe's German Syrup is positively the only preparation on the market today that does relieve and cure consumption. It contains the specific, such as pure tar, extracts of gum, etc., which have been so highly indorsed for the cure of coughs, colds, and consumption by the great medical congresses. The consumptive, whether his disease is in the throat or lungs, must have rest at night, and be free from the spasm of dry and racking cough in the morning. The diseased parts want rest, healing and soothing treatment, and the patient needs fresh air, good food, etc. German Syrup will give free and easy expectoration in the morning with speedy and permanent relief. Tendency of the Times.

The tendency of medical science is toward preventive measures. The best thought of the world is being given to the subject. It is easier and better to prevent than to cure. It has been fully demonstrated that pneumonia, one of the most dangerous diseases that medical men have to contend with, can be prevented by the use of Chamberlain's Cough Remedy. Pneumonia always results from a cold or from an attack of influenza (grip), and it has been observed that this remedy counteracts any tendency of these diseases toward pneumonia. This has been fully proven in many thousands of cases in which this remedy has been used during the great prevalence of colds and grip in recent years, and can be relied upon with implicit confidence. Pneumonia often results from a slight cold when no danger is apprehended until it is suddenly discovered that there is fever and difficulty in breathing and pains in the chest, then it is announced that the patient has pneumonia. Be on the safe side and take Chamberlain's Cough Remedy as soon as the cold is contracted. It always cures. For sale by J. Jas. Wood & Son.

FEEBLE OLD PEOPLE.

For All Such People in Maysville We Guarantee Vinol Will Create Health, Strength and Vitality, or Return Money.

Hundreds of old people right here in Maysville need just such a strength maker and body builder as our delicious cod liver oil preparation, Vinol; and we simply cannot understand why they will continue to drag out a half-dead and half-alive existence, when we guarantee Vinol will infuse new life, invigorate every organ in the body, stop the natural decline and make them well, vigorous and strong.

If you want to know how an aged, feeble, discouraged man or woman may be made active, cheerful and vigorous, read this letter:

Mrs. Catherine Therer of Albany, N. Y., writes: "Six months ago I felt that I was broken down by age, and I was doomed to the weak and feeble condition of old people. The slightest exertion tired me, and I had no strength. My daughter brought me a bottle of Vinol. I soon felt an improvement, I continued its use, and am now well, cheerful and stronger than I have been for years; in fact, I feel 10 years younger."

Vinol is not a strong stimulant which reacts on the system, but it is a genuine tonic and body builder which creates strength by building up every organ in the body to do its work as nature intended, and makes rich, red blood. In this way it stops the natural decline and replaces weakness with vigor. We wish every old person in Maysville would try Vinol on our guarantee to return money if it fails. Take a dose of Vinol after each meal and every night before retiring and note its beneficial effect. J. C. Pecor, Druggist.

JAPAN!

The dark cloud rests over the "Far East" and "Grim Visaged War" is shaking his shaggy locks.

War is cruel, and it is a terrible thing for Nations to submit their differences to such a bloody arbitrament.

Notwithstanding this, these Nations will have to be fed, clothed and supplied with animals for cavalry and transportation purposes.

American farmers will be called upon to furnish these things in exchange for Russian and Japanese gold.

The prices of land will not get lower. Now is the time to buy good farms, and if you will come to me I will tell you who has them to sell.

We Paid \$100,000

For Ligozone—Yet We Give You a 50c. Bottle Free.

This Company, after testing Ligozone for two years in the most difficult germ diseases, paid \$100,000 for the American rights. That is by far the highest price ever paid for similar rights on any scientific discovery.

We publish this fact to show you the value of Ligozone. Men of our class don't pay a price like that save for a product of remarkable worth to humanity.

Kills Inside Germs.

The reason for that price is this: Ligozone alone can kill germs in the body without killing the tissues too. Nothing else in the world is so good for the human body; yet Ligozone is a germicide so certain that we publish on every bottle an offer of \$1,000 for a germ that it cannot kill.

Ligozone destroys at once and forever the cause of any germ disease. And there is no other way to do it. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is helpless in troubles of this kind.

Not Medicine.

Ligozone is not made by compounding drugs. Its virtues are derived solely from gas, made in large part from the best oxygen producers. By a process requiring immense apparatus and 14 days' time, this gas is made part of the liquid product. Ligozone has, for more than 20 years, been the con-

stant subject of scientific and chemical research.

The result is a product that does what oxygen does. Oxygen is the very source of all vitality, the most essential element of life. Ligozone is a vitalizing tonic with which no other known product can compare. Its effects are exhilarating and purifying. But germs are vegetables; and Ligozone—like an excess of oxygen—is deadly to vegetable matter.

Ligozone goes wherever the blood goes, destroying every germ in the body. In this way it cures diseases which medicine never cures. It will do more for sick humanity than all the drugs in the world combined.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Ligozone kills the germs, wherever they are, and the results are inevitable. By destroying the cause of the trouble, it invariably ends the disease, and forever.

We will then mail you an order on your local druggist for a full-size bottle, and we will pay your druggist ourselves for it. Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood. It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of Swamp-Root, by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

We learn she has the "promise" of the Valley school for this coming fall. We learn that R. P. Million has rented the place of James Bowman between this place and Bowman, now occupied by Lonzo Humphries, who intends to move to Bath county in the near future. Measles have made their appearance in this community. Over near Muse's Mills the measles are proving quite fatal. In one week we learn there were five deaths. Miss Bessie Ham died from the measles, and one week later her brother, Lucien, followed her to that bright, happy shore. They were both schoolteachers and were highly respected young people. Died: Little Alex Carpenter, on Saturday night, January 23rd. Monday, as they were preparing him for burial and the grave was being dug, his body not having stiffened as by death, a messenger was dispatched to Mt. Carmel for Drs. King and O'Bannon, who came and made a

thorough examination of the body, which they pronounced dead. His remains were buried the 26th at the Martin Cemetery, about three miles Southeast of here. He had suffered all fall and winter from dropsy and inflammatory rheumatism. He was 10 years and 7 months old. The bereaved family has the entire sympathy of this neighborhood.
